# *A Year Like No other...*

*Although this year has had its extreme troubles, we still have so much good to look back on. Whether that be if you walked through Fairhaven's doors every other week or logged into Buzz everyday.*

*As a team, the yearbook staff have met virtually and worked on this together in order to capture these good moments – which is the beauty of the yearbook as a whole. It has the ability to capture a moment in time and stop it.*

*I hope that in years to come, when you look back on this book, that you not only think of a high school year that has passed, but also of what challenges we had overcome as a society. Within this book is just a glimpse of our lifelong journey through time.*

*Thank you for being a part of my journey,  
Fiona Marques  
Yearbook Editor*

# TO THE CLASS OF 2021,

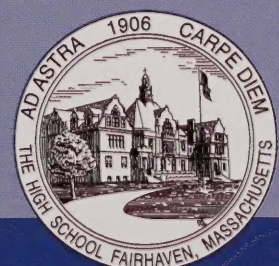

We know that the 2020-2021 school year has looked and felt different from years past. While we have tried to give you the best that we can, we know that it is not what you pictured for your senior year. We imagine you looked up to the seniors when you were freshmen and couldn't wait to be walking in their shoes. Now, here you are wearing masks, sitting six feet apart, and hoping for some semblance of normalcy. We understand how you are feeling. We too, hate it but we want you to know that we love you.

Although the year has had its challenges, the highlight has been you. We are thankful for your class, grace, resilience and we are beyond proud of you. What you have endured in the last year and a half and how you have handled adversity has allowed your character to shine. Your fortitude has proven that you can achieve your goals in the most challenging of times.

You are the reason we come to work everyday. You are why we love our jobs. YOU INSPIRE US - to be our very best, to work harder than ever before, to be creative, to be relentless. It is our hope that your future won't always look like it has this year. There are brighter days ahead.

It is our hope that this year has taught you that you can endure anything, that you are resilient. As you get ready to leave these halls and take on the world, remember your strength and your grit. Remember to never quit.

All the best,  
Mr Kulak, Mrs. Millette, Ms. Giannandrea

# CLASS OF 2021

## SENIOR CLASS OFFICERS

President: Nina Medeiros  
Vice President: Isabelle Pacheco  
Secretary: Trinity Ferreira  
Treasurer: Kate Ferland  
Public Relations: Alex Sarkis  
Class Historian: Charles Fernandes  
Advisors: Ms. Collette & Mr. Rodrigues

Dear Class of 2021,

If you were to tell me two years ago that we would be taking classes online, coming to school every other week, and all wearing masks standing six feet apart, I would not have believed you for one moment. The class of 2021 has had to face many unique and difficult obstacles on our way to graduation. Although these past two years have had their difficulties, our class has overcome them, proving our resilience and adaptability. From junior year being cut short to our senior year being distinctive from past senior classes, we faced a year no class had before and made the most of it. Facing the unknown was both frustrating and stressful at times, however, we persevered; what we faced will not be forgotten. Now being known as the class who lost the most, let this not be what defines us as a class. Let how we were able to graduate in these uncertain times be what defines our class. Let how we adapted in an ever changing education system be what defines us. Let how we still carried a desire for education even when it was out of our

comfort zone be what defines us as a class. Let our senior year be something that we carry with us forever, these memories will be what sculpts our futures. The pandemic may have changed what our future may hold, however, we proved that we can face anything that life throws at us. Having seen what this class has accomplished, I can say that I am proud to be a member of the senior class of 2021. The future seems bright for all of us and I am excited to see what the future holds. Remember, when faced with adversity and difficulty, stand steadfast, never give up, and shoot for the stars. Best of luck to the class of 2021, and as recited by many current and former members of Fairhaven High School, Carpe Diem, seize the day.

Sincerely,  
Nina Medeiros  
Class of 2021 President

These recommendations, developed after months of meetings, discussions, research and consultation with Massachusetts governing entities.

MIAA President and Marshfield Superintendent Jeffrey Grapone is excited that student athletes and coaches from across the Commonwealth are finally able to prepare for an actual athletic season. The work MIAA COVID-19 Task Force and our individual sports committees will allow for these sports to take place in a fashion that adheres to safety precautions/modifications that have been recommended by the MIAA.

The MIAA fall season will officially begin on September 18, 2020 following activities were approved by the Board of Directors for the season: Soccer, Fall Gymnastics, Cross Country, Field Hockey, Girls Volleyball, Swim & Dive, Golf and Dance.

 Friday nights are starting to feel like they used to! Keep working hard Blue Devils, game 1 is a little over 2 weeks away

Unfortunately, due to Covid there were no spectators allowed this year, but we were proudly still capable of continuing sports. However, some home games did allow two fans per player.

"A lot of rules were changed, like inbounding the ball from different places and not taking jump balls, so basketball was quite different than in years prior. And playing with a mask on the entire time didn't help our stamina on the court either. But all in all, I think the girls did an amazing job this season. The effort was there and we pushed to make each other better. Our team is young and the girls have so much potential."

# COVID-19

CORONAVIRUS OUTBREAK

# HEARTBREAK

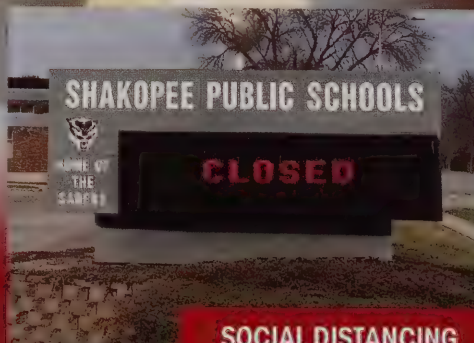

*The emergence of a new coronavirus strain in 2019 becomes one of the largest public health threats in recent history. The novel coronavirus causes a respiratory illness called COVID-19 that produces a cough, fever and trouble breathing. After its discovery in China in late December 2019, COVID-19 quickly spreads across the globe with 1.4M total confirmed cases as of April 7, 2020. Efforts to flatten the growth rate of COVID-19, including school closures, result in major changes to everyday life.*

## LIFE IN QUARANTINE

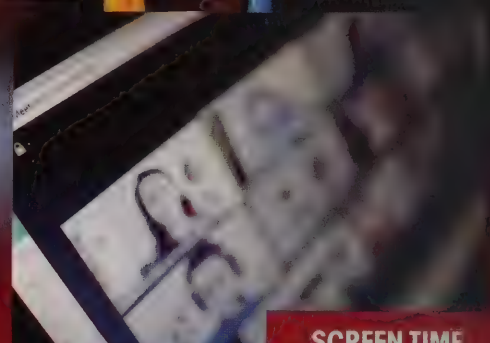

**SUDDEN SHORTAGE**

Stores across the country find themselves with cleaning and sanitary product shortages due to panic buying and hoarding behaviors. One of the most sought-after products is toilet paper.

**SOCIAL DISTANCING**

Restaurants, houses of worship, retail stores, movie theaters, shopping malls, schools and more close in an effort to slow the spread of COVID-19 through "social distancing." In March, President Trump recommends limiting gatherings to less than 10 people.

**SCREEN TIME**

Video conferencing usage increases as people leverage the technology to connect with friends and family.

**FLATTEN THE CURVE**

In order to flatten the growth rate of COVID-19, social distancing becomes a way of life for many. Examples of social distancing include avoiding larger crowds and staying 6 feet away from other people.

**NETFLIX & QUARANTINE**

Netflix Party, a Google Chrome extension, lets friends watch Netflix shows together while quarantined apart from one another.

**STAY HEALTHY**

The Centers for Disease Control and prevention instruct people to wash their hands often with soap and water for at least 20 seconds, roughly the equivalent of singing "Happy Birthday" twice.

In a special episode of The Harbor by Jostens, host Mike Smith talks about how to stay rooted in love, hope, and optimism during these unprecedented times.

# ROOTED IN LOVE

**DESPITE THE ADJUSTMENTS DUE TO COVID-19, ARE THERE ANY POSITIVE EXPERIENCES YOU HAVE HAD?**

I would say this has helped me connect with family better. We had a family game night Tuesday and movie night last night. It has helped us come together in a not so good time.

-Kendal Lynn Adams / West Carrollton, GA

COVID-19 has made me realize how grateful I am for the simple things in my life, like being able to go to school every day. Even though I sometimes complain about the workload, I never realized how much I would miss going to school until I wasn't able to.

-Elizabeth Stuart-Chaffoo / La Jolla, CA

Since I've been staying at home, I've been able to hang out with my little brother and become real close with him. I've never realized how funny he was.

-Anthony Bonet / Naples, FL

I have learned to respect what elementary school teachers do every day because teaching my little brother is DIFFICULT.

-Kameron Koehler / Ladson, SC

## WORDS OF ENCOURAGEMENT

WHAT WORDS OF ENCOURAGEMENT WOULD YOU LIKE TO SHARE WITH THE WORLD?

Other generations have had their setbacks and struggles. It seems that our time for them has come and just like our ancestors, we will get through this together. We will come out stronger and more connected than before.

-Brian Miske / Gustine, CA

You can learn something from this time off. Take this time to get stuff you've waited to get done DONE!! Don't take this time for granted. One day you're going to be telling your kids what you did these weeks. Don't have a lame story to share.

-Layten Goudy / Bryant, AR

Try journaling about your experience! I'm sure it'll make for a great story to tell your future family and friends, plus, it helps to get all your bottled up feelings on paper.

-Melissa Harbican / Colorado Springs, CO

Find the silver lining in all of this. I guarantee you can find some good in this abyss of bad. Reaching out to those closest to you is super important if you feel like you're struggling.

-Sydney Scarboro / Westminster, CO

in the midst of a pandemic, the Centers for Disease Control sends a strong message:

**WASH  
YOUR  
HANDS**

and **DISTANCE** yourself.

## **KNOW HOW IT SPREADS**

- There is currently no vaccine to prevent Coronavirus Disease 2019 (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
  - Between people who are in close contact with one another (within about 6 feet).
  - Through respiratory droplets produced when an infected person coughs or sneezes. These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.

## **TAKE STEPS TO PROTECT YOURSELF**

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Put distance between yourself and other people if COVID-19 is spreading in your community. This is especially important for people who are at higher risk of getting very sick.

## **TAKE STEPS TO PROTECT OTHERS**

- Stay home if you are sick, except to get medical care. Learn what to do if you are sick.
- Cover coughs and sneezes.
- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.
- If you are sick: You should wear a facemask when you are around other people (e.g., sharing a room or vehicle) and before you enter a healthcare provider's office. If you are not able to wear a facemask (for example, because it causes trouble breathing), then you should do your best to cover your coughs and sneezes, and people who are caring for you should wear a facemask if they enter your room. Learn what to do if you are sick.
- If you are NOT sick: You do not need to wear a facemask unless you are caring for someone who is sick (and they are not able to wear a facemask). Facemasks may be in short supply and they should be saved for caregivers.
- Clean AND disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- If surfaces are dirty, clean them: Use detergent or soap and water prior to disinfection.

# STAYING CONNECTED

ins & outs of  
social media

**survey says** talking with friends is the #1 thing teens do on social media based on 241 students surveyed.

139	13	65	24
talk with friends	post content	watch content	other

24/7

It's very hard to go without [social media] because I am on it all of the time. I socialize and watch content to fill my day, especially during the pandemic.

-BRITTANY HARLAN COUNTY HIGH SCHOOL (KY)

## pandemic necessity

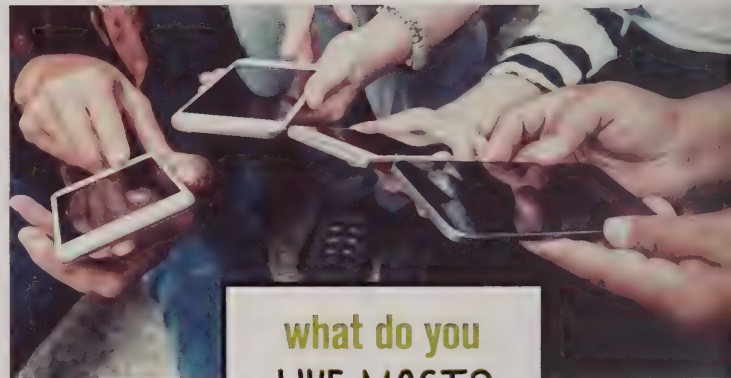

How has social media made you feel more connected to your community during the pandemic?

Social media has allowed me to see how my other friends were dealing with the pandemic and to have conversations about it. Those conversations made me feel like my emotions were valid, that feeling angry wasn't such a bad thing if others were also feeling it.

-JACOB RICHMOND (AL)

Social media has helped me find new ways to cope with quarantine. I was able to find resources that helped me stay busy and productive.

-ALEXANDER NITE (CT)

what do you  
LIKE MOST?

My favorite part about social media, specifically *Instagram*, is probably being able to post things that I can look back on and have memories of. I also love photography and traveling so I can record where I go and what I see and share that with friends.

-CLARENCE THE ROCK ACADEMY (CA)

I like how much of a community can be created so easily. How much you can support someone on the other side of the world with just a few words and an ear to listen.

-ALEXANDER NITE (CT)

I like the funny videos on social media.

-OLIVIA, CYPRESS LAKE HIGH SCHOOL (FL)

The potential it has to educate and connect people. I've always thought that a lot of people's issues stem from a lack of those two things, and the fact that social media has the potential for bridging these gaps is super exciting!

-ELLA, BALTIC HIGH SCHOOL (SD)

The endless number of games you can play.

-ARAGAIL, ARKANSAS SCHOOL FOR THE BLIND AND VISUALLY IMPAIRED (AR)

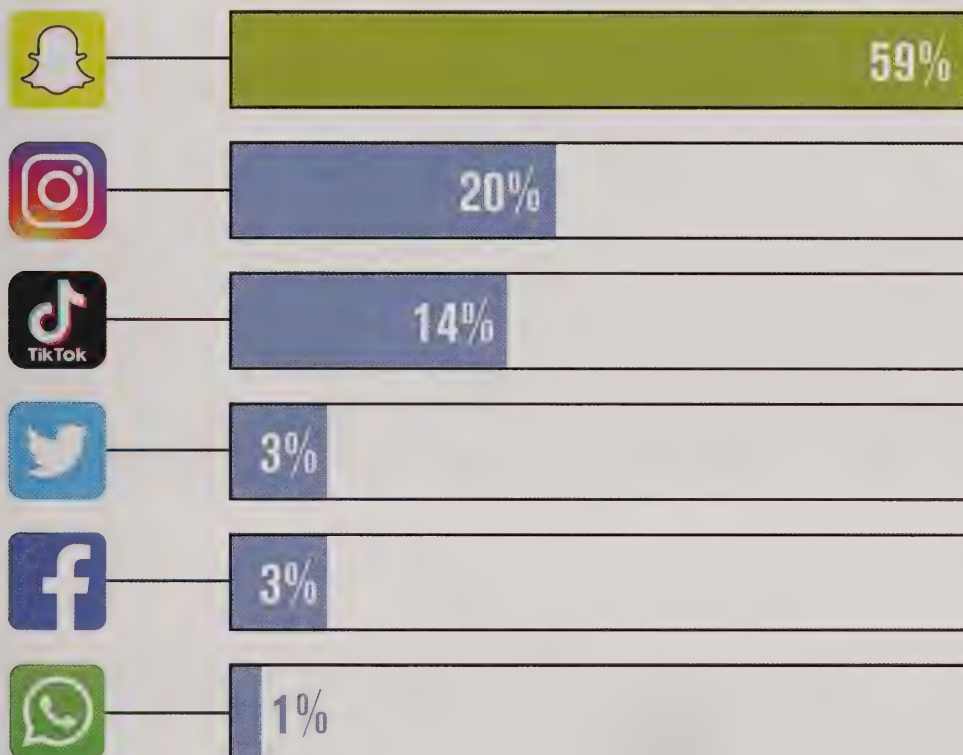

I love watching my favorite influencer's content.

-AMELIA, SACRED HEART (MO)
